

The Results Are In!!!

You asked for it, we brought it to you! All of the jurisdiction survey results published online for all to see.

From time to time, we get asked what other jurisdictions are doing regarding a certain code requirement, or fee, or policy... We will conduct a survey and then provide the results on the Colorado Chapter of ICC's website for everyone to view.

If you ever need a survey conducted or want to get added to the list of people who participate in the surveys, email Shaunna Mozingo at sdmozingo@mozingocodegroup.com and she will send the surveys out via Survey Monkey, then post the results at the link above for all to see. Results are typically available after 10 days, to give folks a chance to submit their responses.

We work very hard to keep the responses anonymous so that everyone feels comfortable responding and so that no jurisdiction information is published online, which could make it seem like a jurisdictional policy instead of just an opinion or comment.

Keep the questions coming. We learn so much from each other. If you think your opinion doesn't matter, guess again! You never know who will learn something from you.

If you see a topic that you want to expand on or you know of an older survey that we did that has been removed and you want an updated one done, just ask. We take them down after a while because some things get outdated.
